

# Dynetics Information Session

**Aviation | Missiles | Intelligence  
Space | Cyber | Vehicle Technologies**

## Join us for an on-campus Information Session

**When: Wednesday,  
February 11, 2015**

**Time: 6:00 p.m.**

**Where: New Engineering  
Building (NEB), Room 202**

## Because what you do matters

Solutions to complex engineering problems come from a team of dedicated scientists, engineers, analysts, and business professionals. Dynetics' expertise, experience, and outstanding resources enable us to produce innovative solutions in response to our customers' toughest problems.

Dynetics is an employee-owned company offering a competitive salary and benefits package designed to promote the personal and professional development of each employee owner.

This information session will allow us to give you an overview of the

exciting, technical challenges available at Dynetics to University of Florida graduates.

Now taking applications for full-time and intern positions in the following disciplines:

- Electrical Engineering
- Aerospace / Mechanical Engineering
- Computer Engineering / Computer Science
- Science / Physics / Optics
- Mathematics
